

# Seeing Safely

## Recognize your Goal and Risks

- ❑ Envision your workday objectives and potential hazards

## Plan and Assess

- ❑ Decide on key evaluation points throughout your workday ahead of time
- ❑ During your assessments, notice what captures your attention, then reflect on what that might cause you to miss hazards
- ❑ Scan the scene again

## Respond

- ❑ Put your plan of action to work to stay safe

## Reflect

- ❑ Debrief on your day by discussing/writing and considering how each of your evaluation points and observations went

# Seeing Safely

## HAZARD IDENTIFICATION TRIANGLE
